

Warded Padlock Pick Set

Working as try-out keys, the **Warded Padlock Pick Set** efficiently opens warded padlocks. **Five different patterns will defeat virtually all warded padlocks.** Avoid costly destruction of padlocks with this economical, easy-to-use set.

Warded Padlock Pick Set
No. PKS

Padlock Shim Pick Set

This 20 piece **Padlock Shim Pick Set** is a fantastic alternative to picking, and in many situations is the only way to open a padlock in seconds. **The shim picks' unique design makes them amazingly successful.** Their specialty is opening laminated type padlocks (the most popular variety in use today), though they will **open almost any lock which has a spring lever latch locking bar** (as opposed to a ball locking latch), providing there is enough clearance to allow the shim to operate. Set contains 5 each of the 4 most common shackle diameters, which enables it to open a myriad of padlocks.

Padlock Shim Pick Set
No. PSA-20

Double-Sided Pick Set

The **Double-Sided Pick Set** is designed specifically for use on double-bitted cam locks. The set contains 4 picks which provides 8 different configurations. **These picks will quickly defeat the most popular double-bitted wafer tumbler cam locks,** commonly found on glass showcases, office furniture and some cash boxes. A plastic storage case is included. Measures: 5.375" x 3.5

Double-Sided Pick Set
No. DSP-1

Cross Pick

The **Cross Pick** is designed for 4-way cross locks. With the removal of one pin, it can also be used on 3-way cross locks. **These locks are used on office furniture and other cam lock applications** and the Cross Pick is the only choice for bypassing them. A genuine leather case is included. (No. COMP-CASE).
