

Why your customers need an HPC Stamp Aligner™

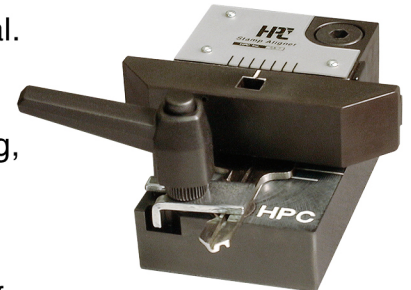

Your customer needs to present their customers with professional looking keys to insure repeat business.

How to sell the HPC Stamp Aligner™

Key Selling Points:

- * Crooked numbers and letters stamped by eye look unprofessional. HPC's Stamp Aligners align multiple lines of perfectly straight, evenly spaced characters for a professional looking key.
- * HPC's Stamp Aligners hold keys securely in place while stamping, preventing keys from moving, while minimizing the risk of injury.
- * The Stamp Aligners accommodate standard stamps with a 1/4" shank. Use your existing stamps, or select a set from HPC.
- * HPC's Stamp Aligners have 7 detents to easily set the position of the stamp.
- * These professional tools can be mounted to your work bench and are small enough to carry with you to the job site.
- * The innovative design of the HPC Stamp Aligners earned them U.S. Patent Number 5,305,531.

No. SA-7

Original Stamp Aligner™

This compact size aligner is designed for single key stamping.

No. SA-7XL-ICB

Stamp Aligner™ XL Best IC

Same as the SA-7XL, with the addition of a special plate that holds an interchangeable core and a Best key. This plate features a snap-in profile for changing keys quickly.

No. SA-7XL

Stamp Aligner™ XL

Comes with the universal plate that holds 2 keys at a time. Removing the plate exposes 2 holes for stamping mortise or rim cylinders.

No. SA-7XL-SCH

Stamp Aligner™ XL Schlage

Same as the SA-7XL, with the addition of a special plate that holds 2 standard Schlage keys. This plate features snap-in profiles for changing keys quickly.
