SW08001

06-13-2008

For many years, aluminum entrance manufacturers Kawneer and Tubelite have purchased MS deadbolts and installed them with their own custom-sized faceplate. While the standard MS preparation is 1" x 6-7/8", Kawneer uses a 1-1/8" X 6-7/8" faceplate (in pairs only) and Tubelite a 1-1/8" x 7-1/4". This creates a challenge when retrofitting a 4900 Series Deadlatch into these doors.

The kits listed below include a 4900 faceplate dimensioned to cover these non-standard preparations.

Description - Kawneer Faceplates

Bronze Faceplate Radius with weatherstrip
Aluminum Faceplate Radius with weatherstrip

Dimension

1-1/8" x 6-7/8"
1-1/8" x 6-7/8"
