## PROFESSIONAL LOCKOUT SERVICES

Master Lock Professional Lockout Services has the expert guidance and industry-leading experience to help facilities meet their safety goals.

### **Building the Lockout Management System Tailored for Each Facility**

Master Lock Professional Lockout Services can take a holistic approach to build a customized, best-in-class lockout management system or focus on the select elements that will make significant improvements in a facility's safety program.

#### **ASSESSMENT**

Our safety experts conduct in-depth, on-site assessments to evaluate the current state of a lockout tagout program and identify methods of improvement. The recommendations from the assessment can be used to design a best-in-class lockout/tagout program that achieves heightened safety, practicality and efficiency for personnel.

#### **WRITTEN PROGRAM**

A team of safety consultants will develop a company-wide written lockout program that takes an efficient approach to meet and exceed compliance requirements.

#### **WRITTEN PROCEDURES**

Our technicians complete an in-depth analysis of equipment and energy sources to create detailed lockout isolation procedures.

#### **TIERED TRAINING**

We empower organizations to create a safer work environment. Achieving a compliant lockout management system requires ongoing training. Our safety certified staff will come on-site and lead all or any of the hands-on courses requested. We offer the following training courses:

- Authorized Personnel
- Affected Personnel
- Lockout Procedure Creation
- Lockout Practitioner Workshop
- Lockout Leadership

#### **PROPER EQUIPMENT**

Our safety experts can provide recommendations on the necessary safety padlocks, lockout devices, and identification tags for a best-in-class lockout management system.

#### **ACCESS**

Experience has shown it should take less than 15 seconds to access lockout equipment. Keeping the necessary equipment close and easily accessible by authorized personnel saves time, eliminates excuses, and helps prevent damages and injuries. We provide the assessment and training to improve access to lockout equipment within a facility.

#### **AUDITS**

Our safety experts offer on-site review of lockout procedures and programs to help ensure compliance requirements are met. We deliver a summary report which includes best-practice recommendations and corrective actions.

Estimates for services will be provided once the scope of work has been identified.
